MY TIMELINE

What Can I do in High School?

What Can I do in College?

What about Medical School and Residency?

Take the ACT and SAT

Complete College Applications:
The Common Application
CFNC and
Individual applications.

Be aware of transcripts and transfer credit such as: Early College, AP, IB, CLEP or Transfer Credit.

Participate in extracurricular activities: Sports, jobs, clubs, organizations, volunteering. Medical schools require you to have at least a Bachelor's Degree. You can <u>transfer</u> from a NC community college to public NC university and still go to medical school.

Picking a major does not effect your acceptance into medical school as long as you have the general course requirements. Generally: 1 year of Biology + labs, 1 year of General Chemistry + labs, 1 year of Organic Chemistry + labs, 1 year of Physics + labs.

Suggested for MCAT prep: Psychology, Sociology, Anthropology, Biochemistry.

Other opportunities to distinguish your application include: Shadowing, volunteering, clinical experiences, research.

Medical schools require you to take the MCAT exam at least one year before entering medical school.

<u>AMCAS</u> is the application for MD (allopathic).
<u>AACOMAS</u> is the application for DO (osteopathic).

Applications open about one year before entering medical school. The application process includes: primary application, secondary application, and in person interviews.

Medical school is four years.

Residency is four years but sub specialties may take longer such as Maternal-Fetal Medicine.

OB/GYN DOCTORS...

Advocate for women in the health care system

Are surgically trained

Are needed in Western North Carolina Care for women inside and outside hospitals
