

MY TIMELINE

What Can I do in High School?

Take the [ACT](#) and [SAT](#)

Complete College Applications:
[The Common Application](#)
[CFNC](#) and
Individual applications.

Be aware of transcripts and
transfer credit such as: Early
College, AP, IB, CLEP or Transfer
Credit.

Participate
in extracurricular activities:
Sports, jobs, clubs, organizations,
volunteering. Workshops,
Summer camps

What Can I do in College?

Pharmacy schools require you to have at least a
Bachelor's Degree. You can [transfer](#) from a NC
community college to public NC university and
still go to pharmacy school.

Picking a major does not effect your acceptance
into pharmacy school as long as you have the
general course requirements.

Other opportunities to distinguish
your application include: Shadowing, volunteering,
clinical experiences, research.

What about Pharmacy School and Residency?

Pharmacy schools require you to take
the [PCAT](#) exam before applying to Pharmacy school.

[PharmCAS](#) is the application service for Pharmacy
school.

Applications open about one year before
entering pharmacy school. The application process
includes: applications and in-person interviews

Pharmacy school is four years. There are four
pharmacy schools in North Carolina:

[Campbell University](#)

[High Point University - Fred Wilson SOP](#)

[UNC - Eshelman SOP](#)

[Wingate University](#)

No [residency](#) is required, but students may choose to
do one to specialize in various fields.

PHARMACISTS...
