Fostering Resilient Future Healthcare Professionals in WNC

DATE
Friday, April 25, 2025

TIME
8:30 am–2:00 pm

LOCATION
Southwestern
Community College

MAHEC's Center for Health Professions Education is partnering with Southwestern Community College to present the second annual Western Regional Health Careers Education Conference and Expo!

The focus of this event continues to be on developing a coordinated effort to heighten knowledge, increase exposure to health careers, and improve workforce diversity in the region. This experience will provide students with practical information needed to make informed decisions in choosing a future path in the health professions.

We invite high school students, educators, school counselors, school board members, administrators, healthcare professionals, parents, youth program advocates, and community leaders to attend. Please share this opportunity with anyone you think may be interested in participating!
